

OceanCARE Expedition

Norway

- Second longest coastline of the world (103.000 km)
- Unaccessible without professional tools (tides, wind, waves)
- Gulf stream
- Plastic is having a big impact on nature and wildlife

ITSB - Biggest clean-up organization in Norway

2017 NGO established

1500 tons of plastic cleaned since 2017

300 volunteers 2023

4 sailboats 7 workboats 16 employees

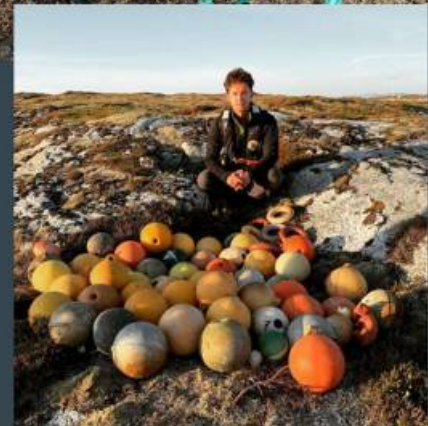

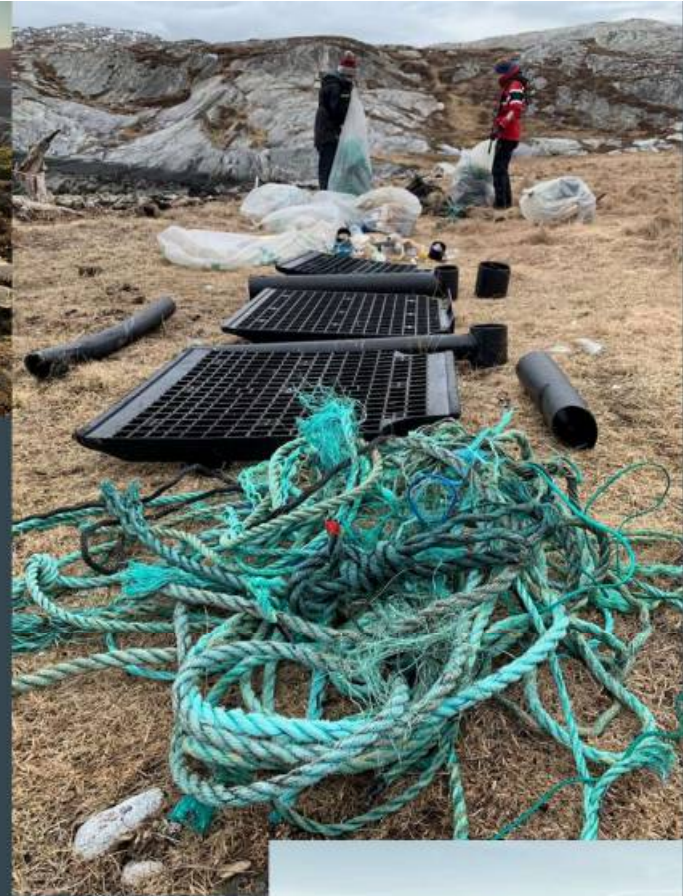

The ITSB method

Mobile teams, long term volunteers, professional skippers and equipment, mapping and tracking

What do we find out there?

- 80% from marine industries
- The fishing industry is the biggest source
- Less than 2% from individuals
- 77% from local sources
- 22% from our neighbours around the North Sea
